

7.7 Area and Perimeter on a Coordinate Plane

Directions: Determine what type of quadrilateral ABCD is by graphing the vertices on a coordinate plane. Then find the area of each and the perimeter if possible.

1. $A(-2,4)$, $B(-1,2)$, $C(-3,1)$, $D(-4,3)$

2. $A(-2,3)$, $B(3,4)$, $C(2,-1)$, $D(-3,-2)$

3. $A(1,-1)$, $B(7,1)$, $C(8,-2)$, $D(2,-4)$

4. $A(10,4)$, $B(8,-2)$, $C(2,2)$, $D(4,8)$

5. $A(0,0)$, $B(5,0)$, $C(0,4)$, $D(5,4)$

6. $A(-1,0)$, $B(0,1)$, $C(1,0)$, $D(0,-1)$
